## **AudioCodes Reports Fourth Quarter and Year End 2006 Results**

Record Quarterly Revenues Rise 6.2% Sequentially and 39.1% Year-over-Year

Lod, Israel – February 5, 2007 – AudioCodes (NASDAQ: AUDC), a leading provider of Voice over Packet (VoP) technologies and Voice Network products, today announced financial results for the fourth quarter and fiscal year ended December 31, 2006.

Revenues for the fourth quarter ended December 31, 2006 were a record \$42.6 million compared to \$40.1 million for the quarter ended September 30, 2006 and \$30.6 million for the quarter ended December 31, 2005. Fourth quarter revenues grew 6.2% sequentially and increased 39.1% compared to the fourth quarter of 2005. Net income was \$671 thousand, or \$0.02 per diluted share, for the fourth quarter of 2006 compared to \$676 thousand, or \$0.02 per diluted share, for the third quarter of 2006 and \$3.9 million, or \$0.09 per diluted share, for the corresponding period last year.

Revenues for the year ended December 31, 2006 were a record \$147.4 million compared to \$115.8 million in 2005, a year-over-year increase of \$31.6 million, or 27.2%. Net income was \$6.9 million, or \$0.16 per diluted share, in 2006 compared to \$13.4 million, or \$0.31 per diluted share, in 2005.

SFAS No. 123R became applicable to the Company effective January 1, 2006. As a result, the Company recorded non-cash stock-based compensation expense of \$8.7 million in 2006, which included \$2.5 million in the fourth quarter and \$2.4 million in the third quarter of 2006. In addition, the Company recorded amortization expenses related to the acquisitions of Nuera and Netrake of \$914 thousand during the fourth quarter of 2006 and \$849 thousand during the third quarter of 2006. Excluding stock-based compensation expense and amortization expenses related to the Nuera and Netrake acquisitions, net income on a non-GAAP basis was \$3.6 million, or \$0.08 per diluted share, in the fourth quarter of 2006 and \$3.6 million, or \$0.08 per

diluted share, in the third quarter of 2006. Non-GAAP net income for the full year 2006 was \$16.6 million or \$0.37 per diluted share. Non-GAAP net income, which excludes the effect of stock-based compensation expense and amortization expenses related to the acquisition of Nuera and Netrake, is reported in order to facilitate financial results tracking and comparison with previously reported financial results.

Non-GAAP measures should be considered in addition to, and not as a substitute for, the results prepared in accordance with GAAP. The Company believes that non-GAAP information is useful because it can enhance the understanding of its ongoing economic performance and therefore uses internally this non-GAAP information to evaluate and manage its operations. The Company has chosen to provide this information to investors to enable them to perform comparisons of operating results in a manner similar to how the Company analyzes its operating results and because many comparable companies report this type of information as well.

Cash flow from operating activities was \$457 thousands in the fourth quarter of 2006 and totaled \$6.6 million in 2006, compared to \$13.2 million in 2005.

Cash and cash equivalents, short-term and long-term marketable securities, short-term and long-term bank deposits and structured notes were \$133.6 million as of December 31, 2006 compared to \$135.8 million as of September 30, 2006 and \$220.3 million as of December 31, 2005. The year-over-year decline was primarily attributable to an aggregate of \$96.4 million in cash expenditures related to the acquisitions of Nuera and Netrake during the third quarter of 2006.

"AudioCodes marked another exceptional year of growth and record revenue in 2006. Our success was substantially driven by the growth in our networking business and our focus on best of breed product strategy in sales to service providers deploying advanced VoIP networks," stated Shabtai Adlersberg, President, Chairman and CEO of AudioCodes. "While overall revenues in 2006 grew over 27% compared to 2005, our networking business continued to show stronger year-over-year growth of over 40% as rising demand for our media gateways and media servers reaffirmed that we are well positioned within some of the fastest growing segments of the telecommunications industry. Our strategic initiative to become a key supplier of Converged IP Communication products and solutions to Service Providers worldwide gained momentum in 2006 with the acquisition and integration of Nuera's cable media gateway offerings as well as Netrake's session border controller and security gateway technologies. As we continue to evolve and expand our leading edge VoIP product portfolio we are able to present more value to our market partners including original equipment manufacturers, service providers, network equipment providers and system integrator customers.

"In addition to new partner and service provider design wins in the fourth quarter of 2006, we made important inroads in the enterprise market with leading market players such as Microsoft and a leading IP-BPX OEM vendor. We enter 2007 with a larger and more mature organization, broad product portfolio, a stronger brand and industry position as reflected in recent design wins, and thus we are optimistic in looking ahead into 2007 and beyond," concluded Mr. Adlersberg.

### **Conference Call & Webcast Information**

AudioCodes will conduct a conference call on Tuesday, February 6, 2007 to discuss the fourth quarter and year end 2006 financial results, which will be simultaneously Webcast at 9:00 A.M. Eastern Time. Investors are invited to listen to the call live via Webcast at the AudioCodes corporate Website at www.audiocodes.com.

#### **About AudioCodes**

AudioCodes Ltd. (NASDAQ: AUDC), Your Gateway to VoIP, provides innovative, reliable and costeffective Voice over Packet (VOP) technology and Voice Network products to OEMs, Network Equipment Providers, Service Providers and System Integrators worldwide. AudioCodes provides a diverse range of flexible, comprehensive media gateway and media processing technologies (based on VoIPerfect(TM) -AudioCodes' underlying, best-of-breed, core media gateway architecture) and Session Border Controllers (SBCs). The company is a market leader in product development, focused on VoIP Media Gateway, Media Server and SBC technologies and network products. AudioCodes has deployed tens of millions of media gateway and media server channels globally over the past few years and is a key originator of the ITU G.723.1 standard for the emerging Voice over IP market. The Company is a VoIP technology leader focused on quality, having recently received a number one ranking from ETSI for outstanding voice quality in its media gateways and media servers. AudioCodes voice network products feature media gateway and media server platforms for packet-based applications in the converged, wireline, wireless, broadband access, enhanced voice services and video markets. AudioCodes enabling technology products include VoIP and CTI communication blades, VoIP media gateway processors and modules, and CPE devices. AudioCodes' headquarters and R&D facilities are located in Israel with an R&D extension in the U.S. Other AudioCodes' offices are located in Europe, the Far East, and Latin America. For further information on AudioCodes, visit www.audiocodes.com.

Statements concerning AudioCodes' business outlook or future economic performance; product introductions and plans and objectives related thereto; and statements concerning assumptions made or expectations as to any future events, conditions, performance or other matters, are "forward-looking statements" as that term is defined under U.S. Federal securities laws. Forward-looking statements are subject to various risks, uncertainties and other factors that could cause actual results to differ materially from those stated in such statements. These risks, uncertainties and factors include, but are not limited to: the effect of global economic conditions in general and conditions in AudioCodes' industry and target markets in particular; shifts in supply and

demand; market acceptance of new products and continuing products' demand; the impact of competitive products and pricing on AudioCodes' and its customers' products and markets; timely product and technology development/upgrades and the ability to manage changes in market conditions as needed; possible disruptions from acquisitions: the integration of acquired companies' products and operations into AudioCodes' business: and other factors detailed in AudioCodes' filings with the Securities and Exchange Commission. AudioCodes assumes no obligation to update the information in this release.
